Hi Karen,

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Also, the US EPA 1990 document that is cited is the SAB report is this one:
U.S. EPA (1990). Development of relative potency estimates for PAHs and hydrocarbon combustion product fractions compared to benzo[a]pyrene and their use in carcinogenic risk assessment. (EPA/600/R-92/134). Washington, DC. U.S. Environmental Protection Agency.
(I think you have this, but I will attach anyway)

According to the schedule, I will need all products from the team in about 2 weeks to have a chance to stay on schedule.

The sooner we can get Andrew started on the Chen neurotox comments, the better. If you have feedback for ICF on their initial modeling product, can you please CC: me? Either way, they are expecting some sort of feedback so they can move forward.

Thanks for your help.

Kathleen

I expect to provide some comments on the Chen modeling this morning...

Hi Kathleen,

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

It's good to get the modeling done in case we need it, but somehow it doesn't seem likely we will.
My thoughts today,
Karen
